

DIEBOLD NIXDORF CS 2560 MULTIFUNCTIONAL OUTDOOR INTELLIGENT DEPOSIT SYSTEM

MIGRATE TRANSACTIONS, MAINTAIN CUSTOMER SERVICE

Despite strong migration to digital channels, many consumers still want to visit a branch to talk to someone in person. That means branch personnel must be available to handle these important customer-retaining conversations. As banks seek ways to increase cost-efficiency and enhance customer relations, self-service located in the branch is seen as an increasingly popular tool. Offering functionality via engaging intelligent deposit technology is one way financial institutions (FIs) are re-engaging branch visitors effectively and profitably while migrating transactions away from the teller line.

PHILOSOPHY

ATMs and digital channels have been useful for helping FIs migrate quick exchanges away from the teller line while providing value-added services in a cost-effective footprint. That is why we created the CS 2560—a multifunctional intelligent deposit system that offers around-the-clock, time-saving convenience for customers. With advanced functionality in depositing large or small quantities of cash, bundles of checks or a mix of the two, it is a trusted option for those looking to offer exceptional service to customers. As a part of Diebold Nixdorf's Cash Cycle Management™ Solutions portfolio, the CS 2560 also features an innovative banknote storage system that enables operators to realize closed cash cycles thanks to the ability to interchange cassettes between all cash-dispensing and recycling systems.*

IMPRESSIVE INNOVATION

The CS 2560 offers comprehensive deposit functionality in a compact design to support bundle-check, coin-processing and cash-deposit transactions, as well as passbook and statement printing. Up to 15-inch monitors, function keys and touch operation, an illuminated card slot, attractive design, and customer guidance, make the CS 2560 a user-friendly outdoor cash-dispensing system. In addition, the dispensing technology, coupled with the cutting-edge cassette technology, creates a unique, flexible system that can be tailored to the specific needs of customers. Anti-skimming technology and tampering detection are also installed, ensuring that confidential information is safe at all times.

ENGAGING, EFFICIENT DESIGN

The CS 2560 is designed not only for convenience and ease of use, but for simple upkeep, as well. A broad range of operating information is delivered automatically, enabling proactive and efficient system management and service. With high component availability throughout and optimized total cost of ownership, you receive engaging technology with little upkeep required.

DIEBOLD
NIXDORF

* Interchangeable with all Diebold Nixdorf systems that feature CMD-V5 and RM3 modules.

FEATURES

APPLICATION

- Exterior rear-load through-the-wall cash dispenser

MEDIA TECHNOLOGY

CMD (Cash Media Dispenser)

- Withdrawals of up to 60 notes in a bundle
- Single or bundle reject/retract
- CCMS ready with E2E cassettes

Banknote storage

- 2–4 cassettes
- Maximum fill level: 300 mm
- Fill-level indicator
- Scalable cassette concept: 300 mm (large), 200 mm (small)
- Retract/reject cassette with 2 compartments

CCDM (Cash/Check Deposit Module)

- Bundle deposit up to 50 notes/checks
- Metal detection
- MICR and OCR recognition
- Banknote validation in compliance with ECB Article 6
- Options: fit/unfit test
- Maximum fill level per cassette: 215 mm
- Separate compartment for counterfeit notes/retracts

CCDM Mixed Media (Cash/Check Deposit Module)

- Bundle deposit up to 75 notes/checks
- MICR and OCR recognition
- Banknote validation in compliance with ECB Article 6
- Options: fit/unfit test
- Maximum fill level per cassette: 270 mm
- Separate compartment

ENHANCED SECURITY

Physical

- Consumer awareness mirrors
- Intelligent operator authentication via CrypTA Stick
- Anti-cash-trapping sensors
- Anti-card-trapping functionality
- Anti-manipulation card slot

Logical

- Encrypting PIN Pad
- Optical Security Guard (OSG)
- Secure channel

DIMENSIONS

WHY DIEBOLD NIXDORF?

With an installed base of 1 million customer touchpoints in more than 120 countries, Diebold Nixdorf leads the industry in self-service cash systems automation innovations. This positions us to better understand the market needs of today and anticipate those of tomorrow. Leveraging our IP and expertise in cash handling, security and branch automation, we use our knowledge across peripheral markets where self-service efficiencies are emphasized for consumers who desire ease, familiarity and security with their day-to-day transactions—from branch to mobile and beyond.

SYSTEM OPTIONS

SECURITY

- Portrait, cash slot and card reader cameras
- Consumer awareness mirrors
- Anti-cash-trapping sensors
- Intruder alarm system
- ASKIM
- Multiple-sensor secured cassette
- Ink staining
- PIN Pad Shield
- Security safe
 - UL291 Level 1
 - CEN L (40mm)
 - CEN I
 - CEN III
 - CEN III EXGas
 - CEN IV
 - CEN IV EXGas

DISPLAYS

- 15" XGA color consumer display screen
- Vandal-Resistive Screen with function keys or touchscreen
- High bright/semi bright
- Privacy filter
- 10.4" rear service operator panel

PROCESSOR

Celeron, i3,i5

ACCESSIBILITY

Headphone jack

CONSUMER EXPERIENCE

- Branding panels
- Alphanumeric keyboard

POWER ARCHITECTURE

- Basic power architecture
- Uninterruptable Power Supply (UPS)

ID DEVICES

- Fingerprint reader
- EMV-ready card reader, Motorized or DIP
- Contactless card reader
- Barcode scanner 1D/2D

PRINTERS

- 80 mm enhanced graphical receipt printer
- 80 mm enhanced graphical receipt printer with dual paper roll (7" and 10" roll)
- Passbook
- Journal printer
- Statement printer (A4, letter, 6")

DISPENSER/DEPOSITORY

- CCDM Mixed Media
 - CCDM Cash and Check deposit module
- Coin dispenser (4 or 8-fold count)
- A6 single check scanner
