

DIEBOLD NIXDORF CS 280 LOBBY CASH DISPENSER

EASY ACCESS TO CASH

Although the frequency of non-cash payments is growing globally, cash retains its status as the world's number one payment method. Nine out of 10 payment transactions are handled in cash worldwide, and the total volume of global cash withdrawals has risen 8% each year. Knowing this, it is hardly surprising that the number of global ATMs is forecasted to grow continually as consumer demand for convenient cash access remains pronounced.

DIEBOLD
NIXDORF

PHILOSOPHY

Our cash dispensers enable you to expand consumer access to cash while providing simple, seamless transaction experiences. The CS 280 not only makes cash accessible in a small footprint, but it is also designed for fast, easy upgrades to satisfy additional requirements as they emerge. You also have the option to integrate advanced functionality, such as mobile-initiated cash transactions driven by QR codes or NFC technology.

OPTIMIZE CASH MANAGEMENT

The CS 280 is the smallest and lightest indoor cash dispenser. Without compromising on technology or quality, this convenient and efficient machine enables a stronger payment infrastructure in small towns and cities, as well as emerging markets. CS 280 features up to four cassettes, guaranteeing maximum availability, and a highly user-friendly interface that results in an intuitive product and enjoyable customer experience.

RELIABLE, UPGRADABLE TECHNOLOGY

The CS 280 is ergonomically designed to suit any user group and features a robust construction that allows long-term operations. An anti-manipulation card slot, anti-skimming module, biometric solutions and high resolution cameras all address security concerns, enhance consumer confidence and maintain the integrity of your system. Combine these factors with dispenser technology that has proven its worth across the globe, and the result is a reliable system.

FEATURES

APPLICATION

- Lobby front-load or rear-load cash dispenser

MEDIA TECHNOLOGY

CMD (Cash Media Dispenser)

- Withdrawals of up to 60 notes in a bundle

WHY DIEBOLD NIXDORF?

With an installed base of 1 million customer touchpoints in more than 120 countries, Diebold Nixdorf leads the industry in self-service cash systems automation innovations. This positions us to better understand the market needs of today and anticipate those of tomorrow. Leveraging our IP and expertise in cash handling, security and branch automation, we use our knowledge across peripheral markets where self-service efficiencies are emphasized for consumers who desire ease, familiarity and security with their day-to-day transactions—from branch to mobile and beyond.
